

# Event Management System V 1.2

We are pleased to share the latest updates and enhancements delivered across the Event Management System (EMS) and Over-The-Top (OTT) platform.

## 1. Support for Double Walkovers

### Functionality

We have introduced support for Double Walkovers to provide greater flexibility and accuracy in match result handling.

With this update:

- Users can now select Double Walkover from a dropdown in the score edit pop up walkover settings for both matches and sub-matches.
- In knockout stages, if a match ends as a Double Walkover, the scheduled opponent in the next round will automatically advance to the following stage.
- Matches marked as Walkover or Double Walkover will now be clearly highlighted alongside the match scores wherever scores are displayed.

This enhancement ensures consistent scoring, clearer visibility of walkover scenarios, and smoother progression in knockout tournaments.

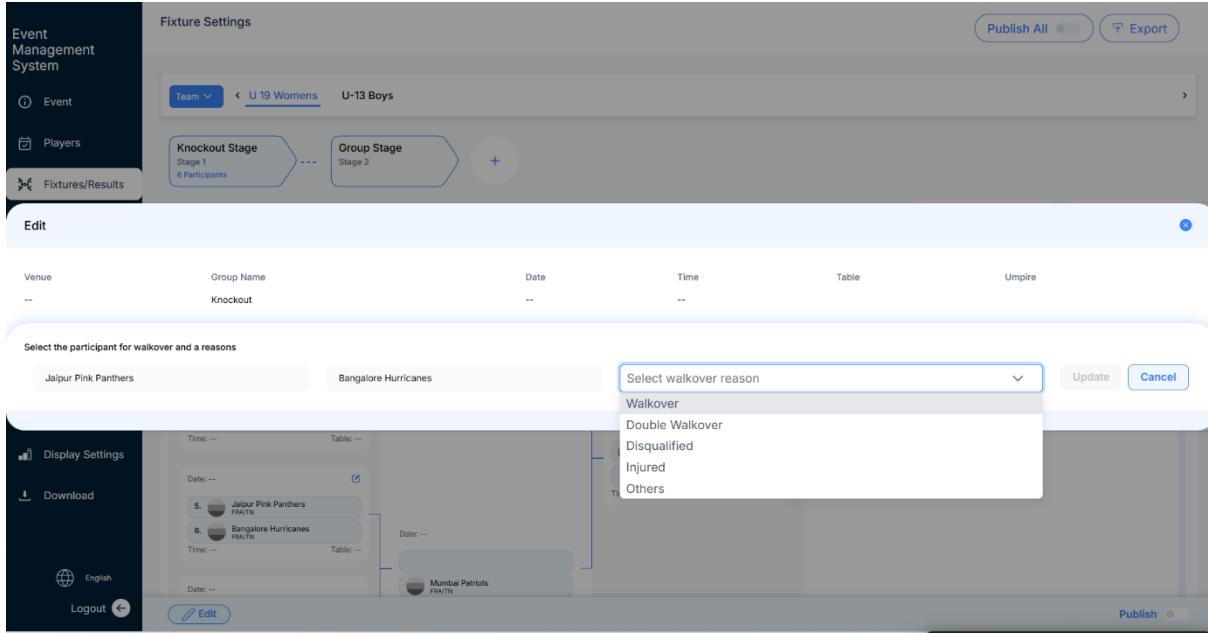

The screenshot shows the 'Event Management System' interface. The left sidebar includes 'Event', 'Players', 'Fixtures/Results' (selected), 'Schedule', 'Scoring and Streaming', 'Awards and Standing', 'Printing', 'Ratings', 'Display Settings', 'Download', and language and logout options. The main content area shows a 'Knockout Stage' with 'Stage 1' and 'Stage 2' (6 Participants). The 'Fixture Settings' are set to 'Final Edit'. The 'Knockout Matches' section lists 8 matches:

- 1. Chennai Lions (FAINT) vs. BYE
- 2. Ahmedabad Spinners (D W/O) vs. Kolkata Thunderbolts (D W/O)
- 3. Jaipur Pink Panthers (FAINT) vs. Bangalore Hurricanes
- 4. BYE vs. Mumbai Patriots

For the second match, a 'Double Walkover' status is indicated. A detailed 'Edit' view for this match shows the following details:

- Opponent: Chennai Lions (FAINT)
- Date: --
- Time: --
- Table: --
- Score: --
- Walkover Status: Double Walkover

2026-01-19

The screenshot shows the 'Fixture Settings' screen. At the top, there are buttons for 'Publish All' and 'Export'. Below that, a navigation bar shows 'Team' selected, with 'U 19 Womens' and 'U-13 Boys' as other options. A 'Knockout Stage' section indicates 'Stage 1' with '6 Participants'. A 'Group Stage' section indicates 'Stage 2'. An 'Edit' button is visible. The main table lists fixtures with columns for 'Venue', 'Group Name', 'Date', 'Time', 'Table', and 'Umpire'. A dropdown menu for 'Select the participant for walkover and a reason' is open, showing options: 'Jaipur Pink Panthers' and 'Bangalore Hurricanes'. A sub-menu for 'Select walkover reason' is open, listing 'Walkover', 'Double Walkover', 'Disqualified', 'Injured', and 'Others'. A 'Update' button is visible in the top right of the dropdown.

## 2. Search functionality in update score screen

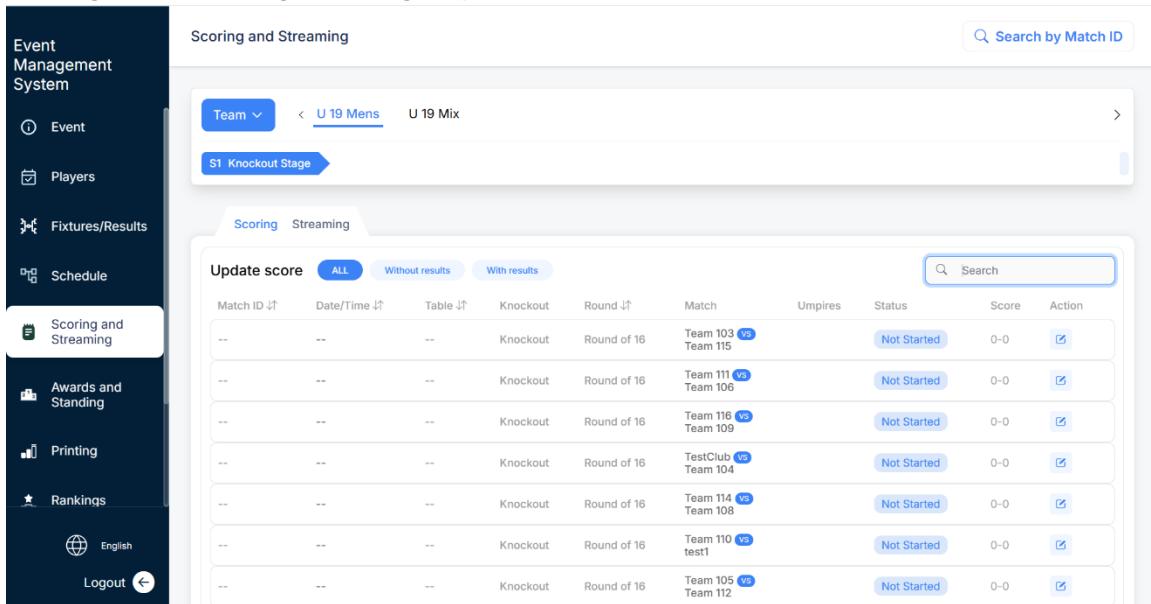

We have enhanced the search functionality in the Update Score screen to ensure consistent and reliable results across all paginated data.

With this update:

- The search feature now works across all pages, not just the currently visible page.
- Users can search for a player name and view all related matches.
- Pagination no longer affects search results filtered matches will remain visible while navigating between pages.

This improvement ensures faster match lookup, better usability, and a more seamless score management experience.

## Scoring and Streaming > Scoring > Update score screen search bar

The screenshot shows the 'Scoring and Streaming' screen with 'Scoring' selected. A search bar at the top right is labeled 'Search by Match ID'. Below it, a navigation bar shows 'Team' selected, with 'U 19 Mens' and 'U 19 Mix' as other options. A 'S1 Knockout Stage' section is visible. The main table is titled 'Update score' and has columns for 'Match ID', 'Date/Time', 'Table', 'Knockout', 'Round', 'Match', 'Umpires', 'Status', 'Score', and 'Action'. The table lists several fixtures, all of which are currently 'Not Started' with a score of '0-0'. Each fixture has a 'Edit' icon in the 'Action' column.

## 3. Display created fixtures below leaderboard screen

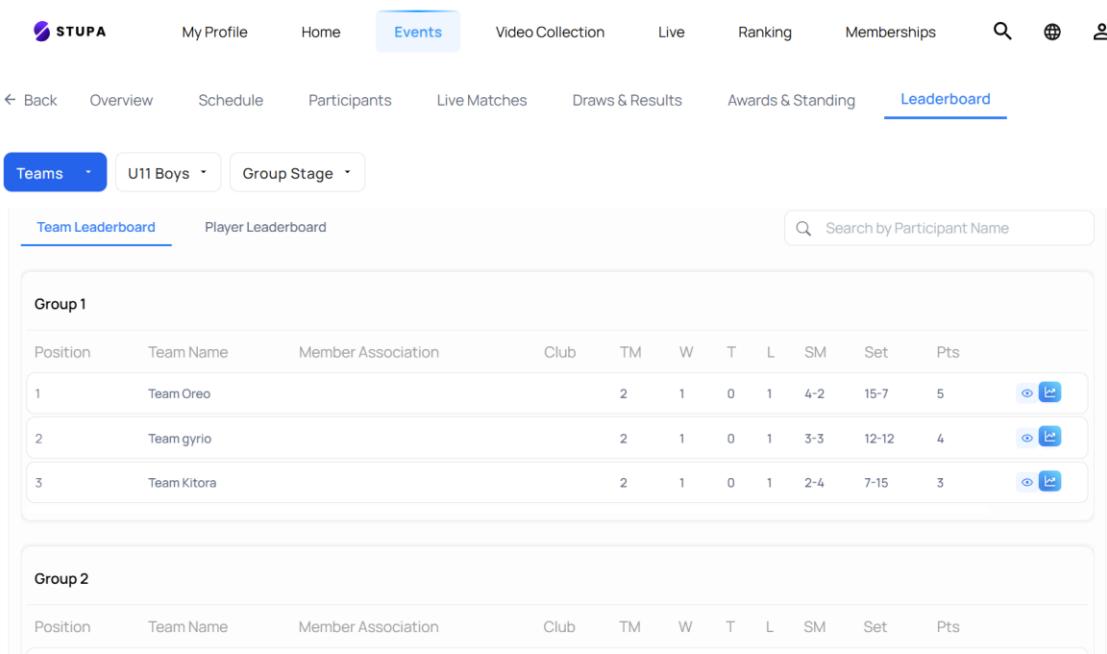

2026-01-19

We have enhanced the Leaderboard screen on the OTT platform with an improved design and additional matches visibility features.

With this update:

- The leaderboard UI has been refreshed for better clarity and viewing experience.
- Matches/Fixture are now displayed below the leaderboard.
- Users can view matches round-wise or choose to see all matches.
- This allows viewers to easily track standings alongside ongoing and completed matches from the same screen.

This enhancement improves match discoverability and provides a more seamless and engaging experience for OTT viewers.

Position	Team Name	Member Association	Club	TM	W	T	L	SM	Set	Pts
1	Team Oreo			2	1	0	1	4-2	15-7	5
2	Team gyrio			2	1	0	1	3-3	12-12	4
3	Team Kitora			2	1	0	1	2-4	7-15	3

Position	Team Name	Member Association	Club	TM	W	T	L	SM	Set	Pts

#### 4. Match window open after “Switch Sides”

We have improved the user experience by updating the behavior of the match edit window.

With this enhancement:

- The match edit window will now **remain open** after using the “**Switch Sides**” option or the “**Reset**” button.
- Users can continue to review or update match details immediately, without needing to search for the match again or reopen the edit window.
- This change reduces repetitive actions and makes match management faster and more efficient during live scoring operations.
- These improvements are available in **Scoring and Streaming**, **Printing**, and **Fixture & Result** sections - wherever the match edit popup can be accessed.

## 5. Send Team Registration Without Adding Players

We have introduced a new enhancement to allow teams to be registered in events **without adding players upfront**.

### What's New

- Organisers can now submit a **team entry without assigning any players** to the team at the time of registration.
- This is controlled via **Registration Settings** → **Team Participant Type** → **Members in a Team**.
- When this value is set to **0**, the system will allow team registration without requiring player details.

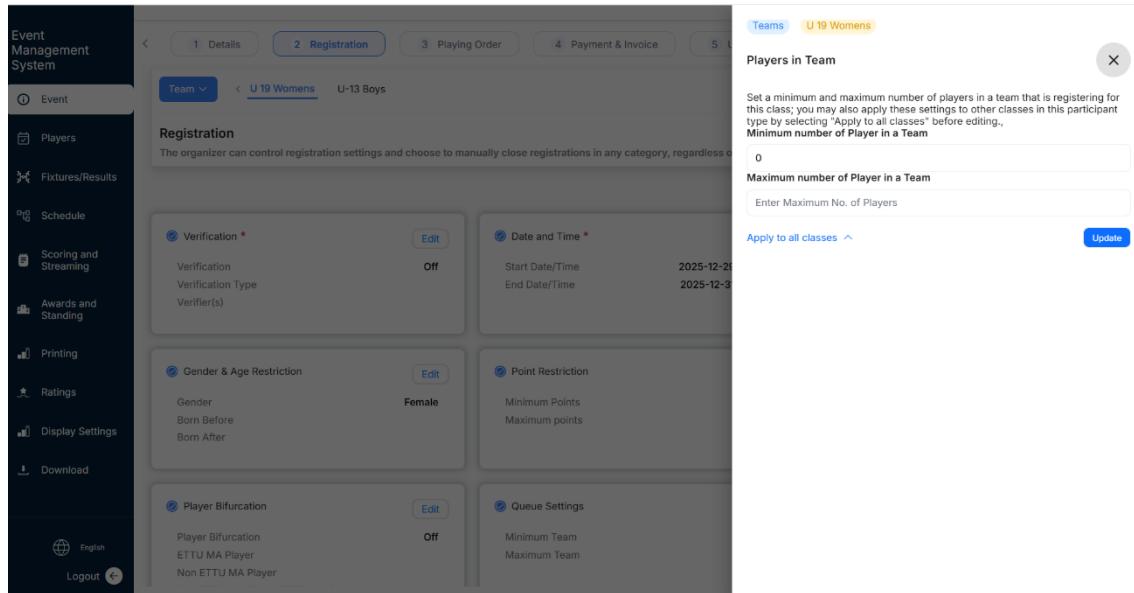

### How It Works

- Go to the **Registration page**
- Select the **Tournament or League**

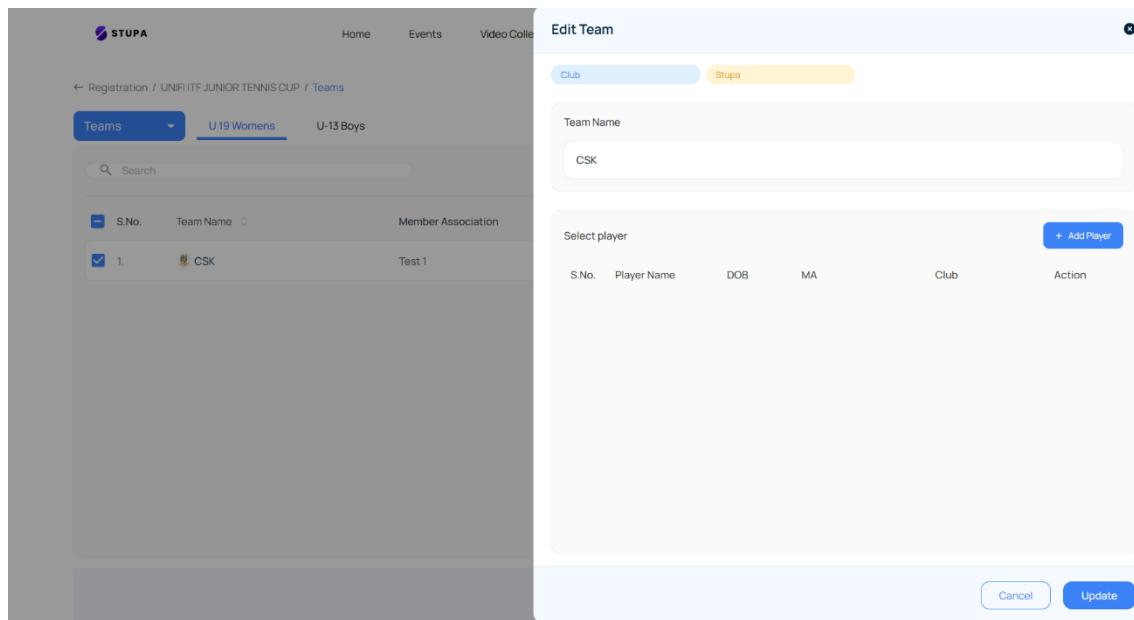

2026-01-19

- Choose **Participant Type: Team**
- Add a team (e.g., *Team A*)
- Register the team directly without adding players

This enhancement provides greater flexibility for organisers to complete team registrations early and assign players at a later stage.

The screenshot shows the 'Event Management System' interface. The left sidebar includes links for Event, Players, Fixtures/Results, Schedule, Scoring and Streaming, Awards and Standing, Printing, Ratings, Display Settings, and Download. The main content area is titled 'Registration' for 'U-19 Women'. It shows various registration settings: Verification (Off), Date and Time (Start Date/Time: 2025-12-25, End Date/Time: 2025-12-31), Gender & Age Restriction (Female), Point Restriction (Minimum Points: 0, Maximum Points: 10), Player Bifurcation (Off), and Queue Settings (Minimum Team: 1, Maximum Team: 1). A 'Players in Team' modal is open, showing a minimum of 0 and a maximum of 10 players per team. There is an 'Apply to all classes' button and an 'Update' button.

The screenshot shows the STUPA system interface. The left sidebar has links for Home, Events, and Video Collection. The main content area shows a list of teams: 'U-19 Women' (selected), 'U-13 Boys', and a search bar. A 'Edit Team' modal is open for 'U-19 Women'. It shows the 'Team Name' field with 'CSK' entered. Below it is a 'Select player' table with columns: S.No., Player Name, DOB, MA, Club, and Action. A '+ Add Player' button is available. At the bottom of the modal are 'Cancel' and 'Update' buttons.

## 6. Buggar - uppdatering

- Fel namn eller inga namn visas på skylten där vinnare bekräftas: Löst!
- Arrangör kan ej lägga till / ta bort spelare efter anmälan stängs – Felsöks
- Klubbnamn saknas på olicensierade /utländska spelare – Felanmält
- Fakturamodulen – feedback behandlas av Stupa
- Köllista – feedback behandlas av Stupa
